# RÖTHELMOOS CIRCUIT

RUHPOLDING

Radlweger

RÖTHELMOOS CIRUIT

## Tour outline

Intermediate-level family tour

Total length: ca 27 km, approx. 250m altitude difference

## Description in brief

Starting from the Egglbrücke bridge, take the short cut via the Sagenweg, and follow the slight ascent via Mühlbauernkapelle, Gstatt, Bärngschwendt, Freizeitpark (fairytale park), Brand, Urschlau (car park) to the Klausbrücke bridge at the end of asphalt road. At the bridge, turn left and follow a steep climb of just under 1 km to Röthelmoos, at the foot of the Hörndl and Gurn mountains. There are two mountain meadows here with farmers' huts offering refreshments prepared by the local herdswomen during the pasturing season. The trail then leads across the Wappachtal valley and down to the lake Weitsee. Behind the road's crash barrier, a narrow path eventually leads back to the road which takes you to lake Mittersee car park after 2 km. Just a quick climb from here to the little mountain ford Wildbachfurt, and then it's a long, gradual descent along the Chiemgau bike trail back to the point of departure.

## Signposting

Signposted all the way:

"Ruhpoldinger Radlweger" (green) Röthelmoos Runde

## Special features

Beautiful view into the Röthelmoos gorge and waterfall at the end of the ascent just before Röthelmoos; Röthelmoos Klause (disused logging dam); swimming in lakes Weitsee, Mittersee and Lädensee-Forchensee near Seehaus: source of the Weißen Traun River - heavy water flow, impressive rapids.

## Refreshments

Bärenstüberl, Gasthof Brand, Dandlkaser, Langenbauer-Alm, Seehaus, Laubau, Fritz am Sand.

## Eschlmoos detour

Turn right at the Klausbrücke bridge and go uphill (8-10% gradient) to the Längaualm mountain pasture. Take the short cut to the Eschlmoosklause and climb up again to Eschlmoos. Short climb to the crest (panoramic view of Loferer Steinberge mountains). A steep descent and then up again to Weißgraben. Glorious downhill ride to the Röthelmoosalp. Turn right and you're back on track for the Röthelmoos circuit.

## Route type

Demanding. Total length approx. 34 km (incl. Röthelmoos circuit), approx. 500m altitude difference, exhausting climbs of up to 10% gradient, steep descents.

## Special features

Impressive views into the Eschlmoos gorge between Klausbrücke and Längau. Eschlmoos Klause (old logging dam wall)

## Tips

Don't forget your swimming things as you will be passing through the "Three Lakes" district in the nature reserve an excellent opportunity for a refreshing dip!
