

## PRESS INFORMATION

### Skål Germany invites to Frankfurt in April

For the German Skål day Skål International Germany invites to Frankfurt from the 26th to the 28th of April 2019. In addition to the meeting of delegates, there will also be plenty of time to get to know the hessian metropolis and new scale.

At the previous presidential and secretary meeting in Munich in November 2018, the aim was to integrate the young tourism experts of the Young Skål division and to improve European and global networking. People want to be more connected in Germany, but also in Europe and around the globe. The delegates of the 22 German clubs thus complied with the German board around Hubert Neubacher.

60 years ago, the Skål Club Augsburg was founded in November 1958 as the 15th German club. Club president-president Götz Beck, who is also the tourism director of the Fugger City, therefore traveled with a delegation of the club to Munich to celebrate together.

Carefree studying because of the Förderverein Skål-Stipendium e. V.:

As part of a small celebration in Munich, four young people now received their certificates and the commitment for 200 euros per month when they study full-time, or 100 euros for the dual degree program. In addition, the club funded their one-year membership in a German skål club; this gives them access to the Young-Skål Group worldwide.
