

Hygiene and precautionary measures in the SensCity Hotel Berlin Spandau

With care in all areas and strict hygiene, we live up to our shared responsibility for containing the coronavirus. With our care we protect our guests, our colleagues and of course ourselves. We would therefore ask you to observe the following measures:

- To avoid droplet infections, our staff wear medical mouth and nose protection. Since March 31st 2021, it is mandatory for our guests to wear an FFP2 mask in public areas. If required, you can purchase an FFP2 mask at reception.
- We provide our employees with corona self-tests on a daily basis. As a guest, you can also purchase a test at reception if required.
- Disinfectant dispensers are available for our guests in the public areas.
- The work area at the reception is separated from the guest by a plexiglass.
- The room keys, parking cards and ballpoint pens are disinfected after the guest has left them and on departure. Strict cleaning measures with special disinfectants are carried out regularly in all contact-intensive surfaces
- If possible, rooms are not occupied for 24 hours after use
- Our housekeeping cleans and disinfects surfaces that are frequently touched, such as door handles, elevator buttons, remote controls, etc. regularly
- The public toilets are cleaned and disinfected several times a day.
- In our breakfast restaurant we have adapted our seating to the distance rules. The tables are disinfected after use.
- Regular ventilation of all public areas in accordance with the ventilation concept.
- We ask all guests to kindly observe the distance and hygiene rules posted in the hotel.

Stay healthy!
Your SensCity team
