

Hygiene and precautionary measures in the SensCity Hotel Berlin Spandau

With care in all areas and strict hygiene, we live up to our shared responsibility for containing the coronavirus. With our care we protect our guests, our colleagues and of course ourselves. We would therefore ask you to observe the following measures:

- To avoid droplet infections, our staff and guests wear mouth and nose protection in public areas. In addition, our employees are trained in all COVID-19 measures.
- Disinfectant dispensers are available for our guests in the public areas.
- The work area at the reception is separated from the guest by a plexiglass.
- The room keys, parking cards and ballpoint pens are disinfected after the guest has left them and on departure. Strict cleaning measures with special disinfectants are carried out regularly in all contact-intensive surfaces
- If possible, rooms are not occupied for 24 hours after use
- Our housekeeping cleans and disinfects surfaces that are frequently touched, such as door handles, elevator buttons, remote controls, etc. regularly
- The public toilets are cleaned and disinfected several times a day.
- In our breakfast restaurant we have adapted our seating to the distance rules. The tables are disinfected after use.
- For the hasty guest in the morning we offer our lovingly prepared packed lunch. For the morning connoisseur, we serve breakfast on the seat in our breakfast restaurant.

Stay healthy!
Your SensCity team
