## MADE IN GERMANY

Injection molding specialist FriWo is an expert in small plastic parts and a supplier of precision accessories for window decoration. The family-owned company based in the Swabian village of Kohlberg offers specialist wholesalers one of the largest comprehensive curtain rail accessory ranges worldwide.

Its products might be complex to manufacture but they are easy to fit. They are washable and durable and work just the way you could expect them to: running and gliding very smoothly. Consistently high quality and functionality are crucial to both the longevity of the decoration as well as customer satisfaction. FriWo's success is also down to its quick and rapid delivery: "This is primarily achieved by producing regionally and constantly evolving," explains Managing Director Andreas Wolf.

## NEW WAVE TAPE TECHNOLOGY FOR VARIETY AND EASE OF USE

- Delight in its ease of use and variety of combinations
- Never before has it been simpler to create that perfect wave look for your curtains and drapes
