

CORONA?

How do I get my test result?

WHEN?

You can see your laboratory result for the first time Query 24 hours after sampling.
If the result is not yet available, you can repeat the process every 6 hours.

HOW?

1. The "MeineLaborwerte-App" with the mobile phone download. Then scan the laboratory code and Enter your own name and date of birth.
2. Alternatively also with an iPad / tablet / laptop / PC possible to use a camera (for the laboratory code) disposes. Website:

<https://web.meine-laborwerte.de/start-page>

Even if the laboratory code does not allow any conclusions to be drawn about you, you should dispose of this card carefully after use and make it unrecognizable for third parties.

... and do not forget

- Please keep a distance of 1.5 to 2 meters from other fellow citizens and avoid crowds of people
- Avoid shaking hands when greeting or saying goodbye
- Note the following "sneeze and cough label": Please always turn away from others and sneeze or cough into the crook of your arm, not into the palm of your hand
- Wash your hands regularly with soap and water or use a disinfectant (watch out for the label "limited virucidal")

The Robert Koch Institute can provide you with further information: www.rki.de
